Organic acid: Blackcurrant, Blueberry, Grapefruit  
Iron: Spirulina  
Fibbers: blackcurrant, Goji Berry

## *Superfruit at your disposal* *All the nutrients of the fruit!*

Our vacuum drying process at low temperature allows us to preserve the nutritive elements of the fruit. Indeed, the fruit is very slowly heated so that we don't destroy the active molecules contained in it. Therefore our dehydrated fruit is an asset from a nutritional point of view. Moreover they are natural solutions for any dietary complement.

They are ideal to incorporate to any nutraceutical solutions such as: pills, sports drink to rehydrate, sugar-free preparations...

**Granulometry:**

 **Dehydrated Fruit Powders:**  
800, 600 or 500  $\mu\text{m}$

**Avantages:**

- Easy to use in your formulas
